## **Introduction**

As part of the BW Group, Visiontech Decor has evolved in view of the interior design and fit-out markets demand, for a bespoke, multi-disciplinary interiors construction company that provides outstanding quality fit-out at highly competitive prices.

We concentrate on various project sizes that may sometimes be ignored by the major fit-out companies, and are able to cost-effectively deliver these projects to the highest quality standards.

Visiontech Decor has quickly established itself as a reliable partner for Retail, Hotels, Restaurants, Commercial Offices and Private Villas.

Our immediate success has been based on sound management principles, high quality standards, ethical business practices and also our close collaboration with Clients, Consultants and International Designers.

## **Vision**

Our vision is to improve on what we are already doing but to try and do it better. Our focus is on client service through ongoing development of our staff and operatives. We believe in developing from within and testament to this is that most of our Project Managers, Site Managers and Foremen have developed from within our own ranks.

We believe this enables us to provide continuity with regards quality of work and general operating standards. By promoting these in house development strategies we continue to invest in factories and facilities which underpin our ability to provide quality service and fit-outs to our clients.

All of this gives us a unique position in the market and enables us to continue to participate in iconic fit-outs in the region, many of which are our signature projects.

## **Mission**

Our mission is simple. We focus on quality rather than quantity. Our aim is to achieve sustainable growth over the long term through, new and repeat business.

Our ongoing investment in plant, equipment and skills, coupled with our in-house development strategies, promotions and innovation within the industry will help us sustain this growth.

## joinery

Established in 2006, BW Furniture Manufacturing has become one of the leading producers of high quality furniture and joinery for the local region and international market.

It is our mission to provide the quality and reliability that is required for the many iconic interiors fit-outs carried out by us which are benchmark projects in the industry. We have made a substantial investment in plant, equipment and manpower giving us the enviable position of being able to maintain two highly automated factories staffed by highly trained supervision and tradesmen of all disciplines. Our ability and reputation for delivering the highest quality product to the market has seen our customer base expand and continues to grow.

The technical ability of our production team is highlighted by the various completed projects. These include the processing of raw timber through our in-house kiln-drying plant to the selection process of the various timbers and veneers to achieve the final quality article. Our precision Milling Department can deliver either material for bespoke custom pieces or the production of mass produced items as required with capability of CNC routers, and other computerised machinery. The Assembly Section produces the finished items ready for polishing to any level of finish from open grain to high gloss depending on the client's demands, this is achieved with the assistance of our automated spray line and sealed spraying areas for high quality finish. We also have the ability to produce specialised finishes including resin mouldings to gold and silver leaf application.

All of these processes are overseen by our factory managers and their team of supervisors from the beginning of the project to the onsite installation of the completed project.

We believe the client must be serviced with the highest quality of products and services to their satisfaction, as without them, we would not have a business, we will not compromise on this.

At BW Marble and Stone, we consider ourselves as your quality partner for all your stone work requirements. Our objective is to ensure that all our clients find a stone solution that fully meets their aesthetic, quality, maintenance and financial expectations.

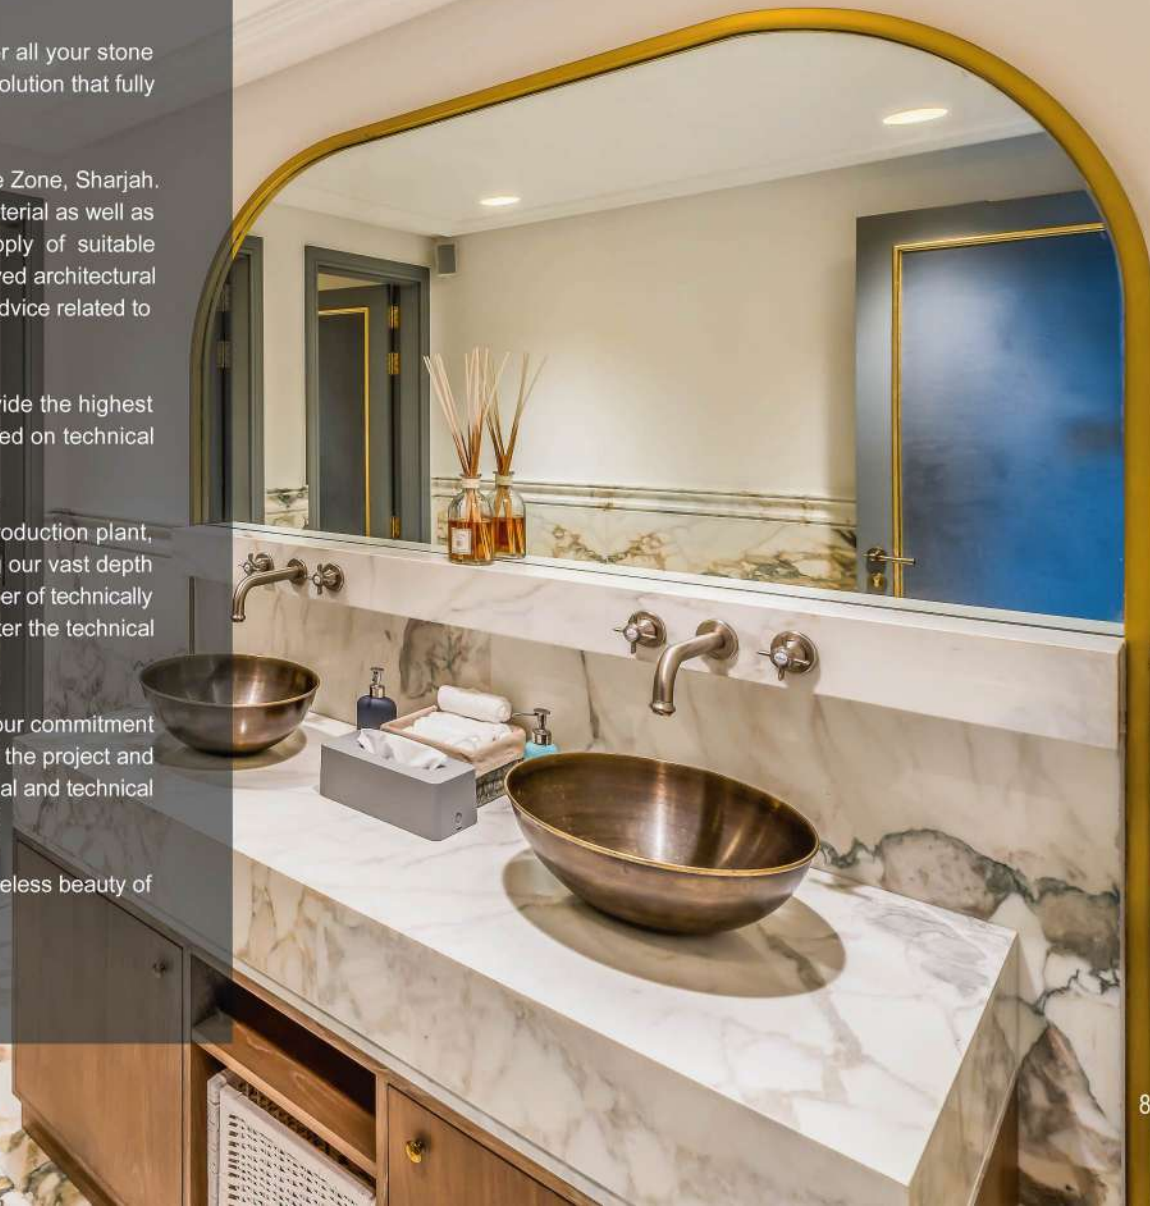

BW Marble and Stone was established in 2005 and is located in Hamriyah Free Zone, Sharjah. We offer wide ranges of marble, granites, limestone and other natural stone material as well as a range of technical support services. These include identification and supply of suitable materials, samples and production of workshop drawings developed from approved architectural plans. We produce cutting sheets based on these drawings and offer practical advice related to optimum usage of materials and selection of suitable product.

From our 100,000 square feet factory and dedicated installation teams we provide the highest level of workmanship and ensure that all works are delivered satisfactorily based on technical knowledge and qualifications.

Our approach to projects is to maximise efficiency and quality through our production plant, equipment and qualified personnel using state-of-the-art equipment and utilising our vast depth of knowledge and experience acquired from successful completion of a large number of technically diverse projects. We can satisfy the most extreme requests of clients no matter the technical difficulty.

BW Marble and Stone is a professional and reliable partner for any client, and our commitment and dedication, through interface and follow up, throughout the duration of the project and thereafter, provides the necessary service, after sales service as well as commercial and technical service to ensure successful completion of every project.

Put the magnificent finishing touches to your architectural concept with the timeless beauty of natural stone from BW Marble and Stone.

## aluminium, glass and steel

Vision Tec LLC is a part of the Bowyer Wick group of companies. We specialise in three disciplines, Structural Steel, Architectural Metals, and Glazing. Structural Steel can encompass simple brackets through to complete steel structures for buildings and warehouses. Architectural metals is mainly utilised in retail and commercial fit-outs including restaurant and hotel bars, etc. It can vary from specialised stainless steel fabrication and wrought iron work to themed metal coating. Our Glazing department specialises in office glazed partitions, frameless doors, automated glass doors, shop front glazing, sandblasted glazing and aluminium doors and windows.

Vision Tec was started with a view to providing a complete solution for high quality Interior fit-out projects. This has been achieved in a relatively short space of time and is evident at many completed projects. During this period we have built our reputation as a company that prioritises high quality, reliable service and work whilst maintaining competitive prices.

We currently have a factory of 15,000m<sup>2</sup> at Al Ghail Industrial Free Zone at Ras Al Khaimah.

Our factory has a full range of computerised numerically controlled glass processing machines, steel fabrication and milling machinery and a coating facility for steel. This enables consistent high quality and accurate end products for our prestigious clients. Our team of managers and artisans are highly competent and focus on our core belief in offering uncompromising quality work and service to the industry.

Our pledge is to honour our commitments to our clients, provide full satisfaction through high quality work and services and commitment to after sales service.

This is all underpinned by the continuous improvement of our facilities and systems through ongoing investment.

We offer quality assurance and this is achieved by ongoing training of production staff in handling, processing and freight of the finished product as well as ongoing training of site operatives.

We believe in utmost attention to detail and delivery of superior finished product to our clients.

## upholstery

BW Upholstery was originally part of an ongoing and successful operation and was initially acquired to augment our joinery operation. In a short space of time it became evident through increase in orders that our upholstery works was in such demand, that it became necessary to set this up as a fully pledged separate division in its own right. Our upholstery operation operates from our own 7,000 square feet facility in Dubai Investments Park, which includes a factory consisting of all the required machinery and equipment.

All our upholstery works are of the highest quality available in the market and is comparable, if not superior, to most upholstery works worldwide. We employ artisans with the highest level of skill and experience and our managers are amongst the most accomplished in the industry. Our philosophy is to ensure all work is of the highest quality, with particular emphasis on detail and longevity of materials. We have the capability to cater for all upholstery needs, including soft furnishings, drapery, cushions, fabric panelling, sofas and seating, and any other requirements our clients may have. We have achieved enormous client satisfaction through our ability to advise specifications suitable for purpose as well as implementation of work to the highest standards.

Many signature projects in the region have utilised our upholstery works with great success and satisfaction, and to this day are our best advertisement. Our repeat business is testament to our client satisfaction.

We aim to continue in this vein and look to develop our facilities, skills and abilities further in the near future.

## electro mechanical

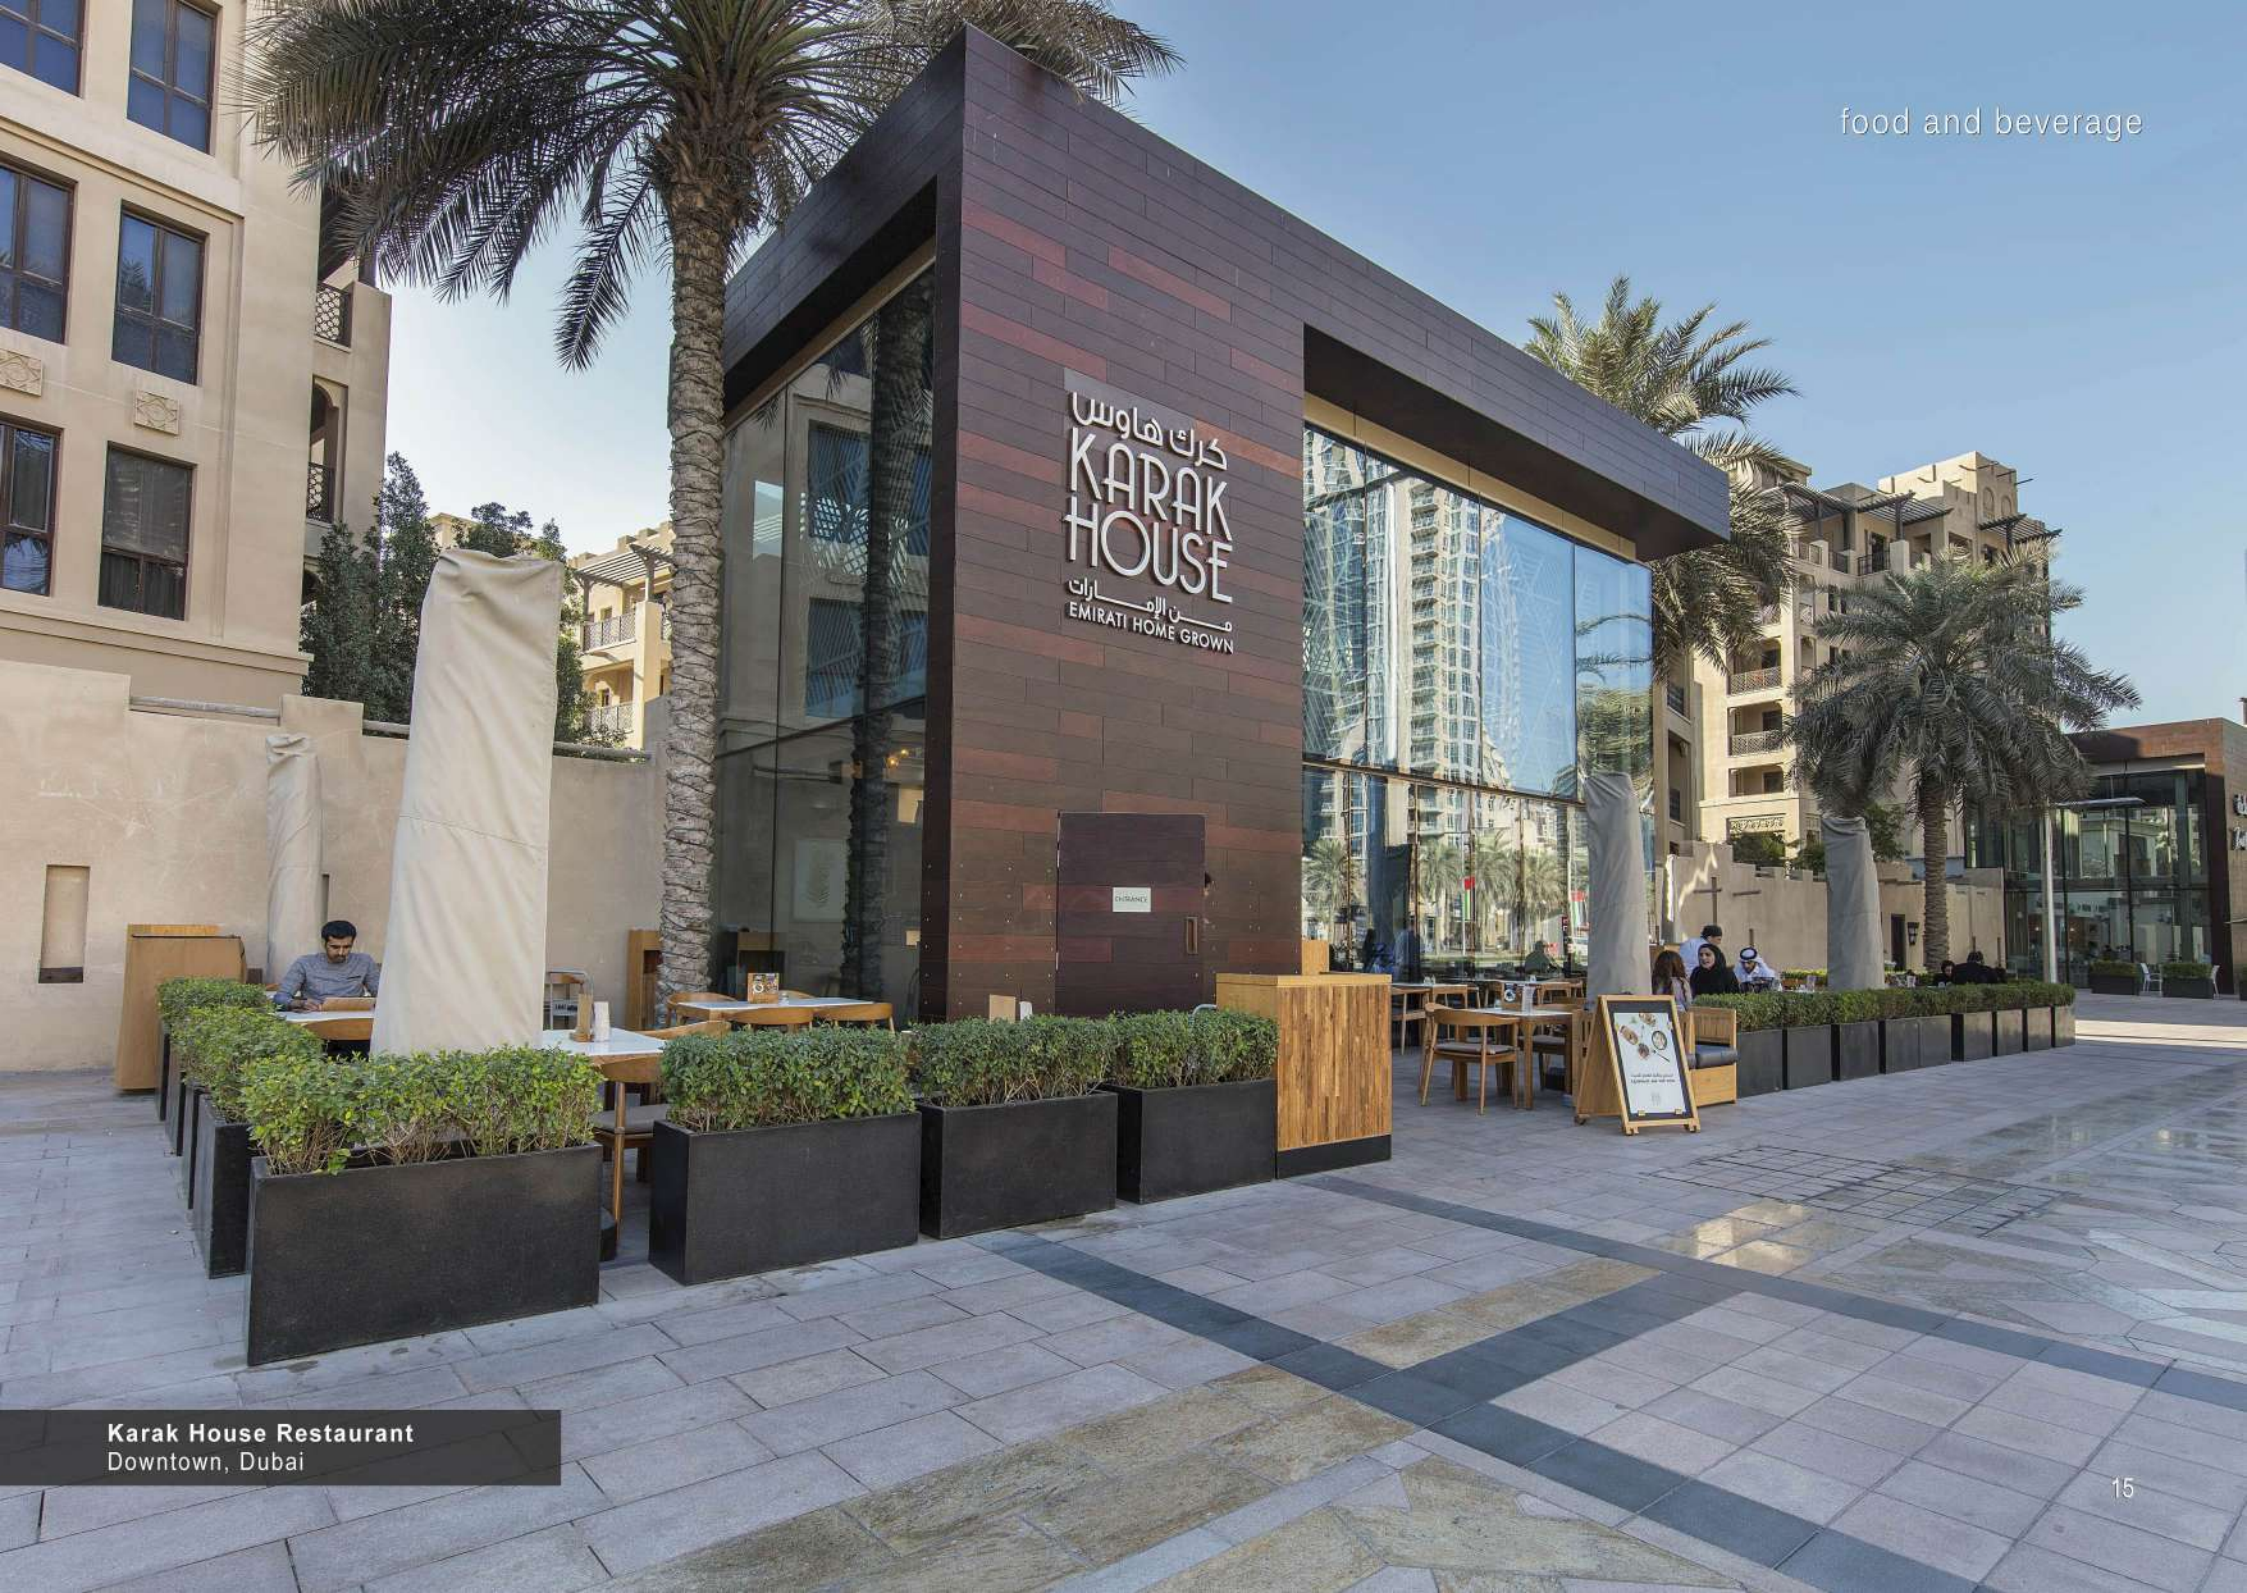

BW Interiors MEP Division was started with a view to adding value to the overall Interiors Division offering to the market, as well as providing a standalone service to the industry as a whole.

Our aim is to provide the best service to our clients through our qualified management personnel and site operatives alike. We feel strongly that any interior environment is only as good as the level of performance that the building services provide. It is therefore our key focus that all our operatives pay particular attention to the technical requirements and standards that our prestigious clients require. Our philosophy is simple, yet effective; we never compromise on technical standards and apply the highest standards of selection when sourcing materials. This is underpinned by our dedicated management staffs who ensure that all work is carefully inspected and approved for quality and compliance to the project requirements.

We employ fully qualified people who understand our core values and this is evident in the repeat business we obtain from our clients. We offer a full range of MEP services including, design and installation of electrical, HVAC, fire fighting and plumbing services. Our service includes all aspects of implementation of electromechanical works from scheme design all the way through to testing and commissioning as well as production of as-built engineering drawings and operation and maintenance manuals.

We are a dynamic and growing organisation and look to constantly improve our services to the market.
